

3.Project Overview: Restaurant Web Page

A dynamic, responsive React-based website for a restaurant. The page will showcase the restaurant's menu, location, and contact information.

Features

1. **Home Page:**
 - o Display restaurant branding (logo, tagline).
 - o Carousel or banner with attractive images.
2. **Menu Page:**
 - o List food items categorized by starters, main course, and desserts.
 - o Search and filter functionality (e.g., vegetarian, non-vegetarian).
3. **Reservation Form:**
 - o A form for users to book a table.
4. **About us Page:**
5. **Contact Page:**
